doctor reimagined in the style of roger hargreaves the doctor graham and ryan try and come up with a fabulous surprise for yaz on her birthday and what an explosive surprise it is this book tells the story of the huge addiction treatment industry which flourished in the united states between 1890 and the advent of prohibition in 1920 the story begins in russia in 1886 where a number of doctors discovered a relatively effective pharmacological treatment for alcoholism although this russian discovery was published in countless major english language medical journals it was entirely ignored by the us addiction experts of the day who eschewed pharmacological treatments and instead preferred to lock people up in inebriate asylums where they could be subjected to religious coercion however an obscure railroad physician and patent medicine salesman named leslie e keeley who lived in the dusty prairie town of dwight illinois read about the russian treatment in a medical journal and decided to give it a try much to his surprise the russian treatment proved highly effective and by 1891 dr keeley was treating upwards of a thousand patients a day at the keeley institute in dwight keeley was a salesman and a bit of a barnum he always claimed that he had invented the cure himself after decades of painstaking research and he called it the gold cure claiming that his secret ingredient was gold of course there was no gold in the gold cure other than the gold which lined keeley s pockets however the treatment was relatively effective and by 1893 there were over 100 keeley institutes operating in the united states and abroad and hundreds of copycats were operating imitation gold cure institutes the keeley gold cure was even adopted by the national homes for disabled volunteer soldiers and the us army the keeley treatment took 28 days and required hypodermic injections four times a day for the entire period on the other hand the gatlin institutes which opened in 1902 and the neal institutes which opened in 1909 used a form of aversion treatment and advertised themselves as three day liquor cures competition between the gold cures and the three day liquor cures in the first two decades

of the 20th century was fierce and intense then as the united states entered world war one in 1917 the demand for addiction treatment suddenly dried up for a variety of reasons and the majority of these proprietary cure institutes had shut down before the enactment of prohibition in 1920 although the parent keeley institute in dwight remained in operation until 1966 this book contains the never before told tale of how these proprietary treatment institutes grew into a huge industry flourished then finally faded away as the united states entered world war one part one of this book covers the keeley institutes dipsocura the bedal institutes the mckanna liquor cure the wherrell gold cure and the hagey cure part two of this book covers the morrell cure the national bichloride of gold institutes the oppenheimer institutes the tyson vegetable cure the willow bark institutes the telfair sanitarium the connelley cure the murray institutes the gatlin institutes the neal institutes the s b collins cure and the d unger cure part two also contains appendices discussing strychnine belladonna alkaloids jag cure laws and more the greatest mash up in the whoniverse continues in this adventure starring the second doctor it s mayhem in the museum as dr second and his companions find themselves on the run from some abominable baddies doctor who meets roger hargreaves mr men in this series of fun and charming stories written and illustrated by adam hargreaves the greatest mash up in the whoniverse continues in this adventure starring the seventh doctor dr seventh and his trusty companion ace are on the prowl as they stumble upon a pack of fiendish feline foes doctor who meets roger hargreaves mr men in this series of fun and charming stories written and illustrated by adam hargreaves shortlisted for the walter scott prize 2018 a surprisingly touching account of hidden lives forced out of the shadows sunday times one day in 1940 rene hargreaves walks out on her family and the city to take a position as a land girl at the remote starlight farm there she will live with and help lonely farmer elsie boston at first elsie and rene are unsure of one another strangers from different worlds but over time they each come to depend on the other they become inseparable until the day a visitor from rene s past arrives and their careful secluded life is thrown into confusion suddenly all they have built together is threatened what will they do to protect themselves and are they prepared for the consequences so lovely gentle yet enthralling claire fuller quietly beautiful and brilliant this is no bucolic idyll but an unfolding of a plot that constantly twists and turns and surprises a truly wonderful memorable novel judges of the walter scott prize 2018 nursing until the 1960s and 1970s was seen as a female profession it is only in recent years that men in any number have entered this perceived female bastion it is generally thought or assumed that it has always been women who have been the only nurses through the centuries however with even the most cursory glance at the literature available or even on the internet it is soon realised that this is not the case it is impossible to talk about or discuss trained nurses per se when there was no actual recognised training available in any shape or form again it is a general assumption that historically the only trained nurses were female this certainly was not the case but nursing was seen up to quite recently as a job for women mainly because of the social and cultural norms a myriad muslims and hindus mortally yearn to know a god of love will circumstances complacency or comfort cushion the callaways at home or will christ s love propel beth merrel and arlene to reach these uttermost with the good news before it s too late when on the spur of a moment norman huntley and his friend henry invent an eighty three year old woman called miss hargreaves they are inspired to post a letter to their new fictional friend it is only meant to be a silly harmless game until miss hargreaves arrives on their doorstep complete with her cockatoo her harp and last but not least her bath she is to norman s utter disbelief exactly as he had imagined her enchanting eccentric and endlessly astounding he hadn t imagined however how much havoc an imaginary octogenarian could wreak in his sleepy buckinghamshire home town cornford norman has some explaining to do but how will he begin to explain to his friends family and girlfriend where miss hargreaves came from when he hasn t the faintest clue himself will his once ordinary once peaceful life ever be the same again and what s more does he want it to miss hargreaves is part of the bloomsbury group a new library of books from the early twentieth century chosen by readers for readers

nursing until the 1960s and 1970s was seen as a female profession it is only in recent years that men in any number have entered this perceived female bastion it is generally thought or assumed that it has always been women who have been the only nurses through the centuries however with even the most cursory glance at the literature available or even on the internet it is soon realised that this is not the case it is impossible to talk about or discuss trained nurses per se when there was no actual recognised training available in any shape or form again it is a general assumption that historically the only trained nurses were female this certainly was not the case but nursing was seen up to quite recently as a job for women mainly because of the social and cultural norms
