a description of the buchenwald concentration camp in the network of nazi camps across wartime europe prisoner of war institutions were often located next to the slave camps for jews and slavs so that british pows across occupied europe over 200 000 men were witnesses to the holocaust the majority of those incarcerated were aware of the camps but their testimony has never been fully published here using eye witness accounts held by the imperial war museum russell wallis rewrites the history of british prisoners and the holocaust during the second world war he uncovers the histories of men such as cyril rofe an anglo jewish pow who escaped from a work camp in upper silesia and fled eastwards towards the russian lines recounting his shattering experiences of the so called bloodlands of eastern poland wallis also shows how and why the knowledge of those in the armed forces was never fully publicised and how some pow accounts were later exaggerated or fictionalised british pows and the holocaust will be an essential new oral history of the holocaust and an extraordinary insight into what was known and when about the greatest crime of the 20th century the life altering experiences of the american soldiers who liberated three nazi concentration camps on april 4 1945 united states army units from the 89th infantry division and the 4th armored division seized ohrdruf the first of many nazi concentration camps to be liberated in germany in the weeks that followed as more camps were discovered thousands of soldiers came face to face with the monstrous reality of hitler s germany these men discovered the very depths of human imposed cruelty and depravity railroad cars stacked with emaciated lifeless bodies ovens full of incinerated human remains warehouses filled with stolen shoes clothes luggage and even eyeglasses prison yards littered with implements of torture and dead bodies and perhaps most disturbing of all the half dead survivors of the camps for the american soldiers of all ranks who witnessed such powerful evidence of nazi crimes the experience was life altering almost all were haunted for the rest of their lives by what they had seen horrified that humans from ostensibly civilized societies were capable of such crimes military historian john c mcmanus sheds new light on this often overlooked aspect of the holocaust drawing on a rich blend of archival sources and thousands of firsthand accounts including unit journals interviews oral histories memoirs diaries letters and published recollections hell before their very eyes focuses on the experiences of the soldiers who liberated ohrdruf buchenwald and dachau and their determination to bear witness to this horrific history david pryce jones weaves a vivid life story through vignettes of the many famous authors friends acquaintances interview subjects who gave him personally inscribed books in signatures he offers a window onto the lives and work of these extraordinary people as a child pryce jones spent time at isaiah berlin s house as a teenager lunching with bernard berenson at i tatti he prompted an outburst about parisian anti semitism w h auden hart ronald dworkin duncan kennedy rudolf smend hans kelsen and carl schmitt it assesses the jurisprudential projects and positions of these theorists against the background of a long history of european metaphysics from which the modern concept of liberal democratic law emerged two key narratives are central to this history of european political and legal metaphysics both concern the historical development of the concept of nomos that emerged in early greek legal and political thought the first concerns the history of philosophical thought on the epistemological and ontological runs from plato to hobbes the realist nominalist debate as it became known later the second concerns the history of philosophical and political discourses on law sovereignty and justice that starts with the nomos physis debate in fifth century athens and runs through medieval modern and twentieth century conceptualisations of the relationship between law and power methodologically the reading of the legal theoretical positions of hart dworkin kennedy smend kelsen and schmitt articulated in this book is presented as a distillation process that extracts the pure elements of liberal democratic law from the metaphysical narratives that not only cradled it but also smothered and distorted its essential aspirations drawing together key insights from across the fields of jurisprudence and philosophy this book offers an important and original re articulation of the concept of democratic law with a new introduction by the author the vital center is an eloquent and incisive defense of liberal democracy against its rivals to the left and to the right communism and fascism it shows how the failures of free society had led to the mass escape from freedom and sharpened the appeal of totalitarian solutions it calls for a radical reconstruction of the democratic faith based on a realistic understanding of human limitation and frailty this expanded edition of the guide to major books in english on the holocaust is organized into ten subject areas reference materials european antisemitism background materials the holocaust years jewish resistance devoted to the ways in which holocaust literature and gulag literature provide contexts for each other leona toker shows how the prominent features of one shed light on the veiled features and methods of the other toker views these narratives and texts against the background of historical information about the soviet and the nazi regimes of repression writers at the center of this work include varlam shalamov primo levi elie wiesel and ka tzetnik and others including alexandr solzhenitsyn evgeniya ginzburg and jorge semprun illuminate the discussion toker s twofold analysis concentrates on the narrative qualities of the works as well as how each text documents the writer s experience she provides insight into how fictionalized narrative can double as historical testimony how references to events might have become obscure owing to the passage of time and the cultural diversity of readers and how these references form new meaning in the text toker is well known as a skillful interpreter of gulag literature and this text presents new thinking about how gulag literature and holocaust literature enable a better understanding about testimony in the face of evil graphically demonstrates how disbelief indifference antisemitism and above all the political expediency of the west doomed a powerless european jewry to hitler s final solution charts the free world s tragic failure to respond decisively to the holocaust back cover to end a history of world war ii at ve day is to leave the tale half told endgame 1945 highlights the gripping personal stories of nine men and women ranging from soldiers to pows to war correspondents who witnessed firsthand the allied struggle to finish the terrible game at last endgame 1945 highlights the gripping personal stories of nine men and women ranging from soldiers to pows to war correspondents who witnessed firsthand the allied struggle to finish the terrible game at last through their ground level movements stafford traces the elaborate web of events that led to the war s real resolution the deaths of hitler and mussolini the liberation of buchenwald and dachau and the allies race with the red army to establish a victors foothold in europe to name a few from hitler s april decision never to surrender to the start of the potsdam conference stafford brings an unprecedented focus to the war s final chapter narrative history at its most compelling endgame 1945 is the riveting story of three turbulent months that truly shaped the modern world volume i considers the history of the european union from an outside in perspective evaluating which outside forces shaped and guided the process of european integration taking an innovative thematic approach this volume will be of interest to students and researchers of european integration
