the most comprehensive anniversary clock 400 day repair book 2023 edition
hundreds of photos and diagrams p do you own a clock that is special to you
that has stopped working perhaps a gift or a family heirloom this book is for
you br do you like to tinker with mechanical things this book is for you br
have you taken a clock apart but can t get it back together this book is for
you br are you fascinated with clocks have several you have bought but do not
work this book is for you p many times the problem is simple to correct be
bold take on your project this book will hold your hand every step of the way
and guide you to success you can do it p why does an anniversary clock stop
working most likely it is because the suspension spring is broken i will
teach you how to replace it p often the works are dirty need oiling or most
likely both when the clock stops think of it as the oil light is on it s a
cry for help without oil the metal parts grind on each other causing severe
wear and damage oil also attracts dust making the oil gummy and adding drag
to its operation until it can no longer overcome the friction if a clock is
oiled regularly every three to five years chances are you will only ever need
to re oil your clock if the clock is allowed to run until it stops the only
sure way to service it is to remove the works from its case dismantle the
parts clean service and put the movement back together with fresh oil and
correct adjustment
