international security over and over again politicians human rights organisations and academics have been demanding that the international community represented by the united nations steps in to stop the mass atrocities and protect the civilian victims from the radical opposition groups and dictator bashar al assad but is there a responsibility of other states towards the syrian population is it morally and legally right to send money weapons and possibly military personnel to risk their lives and resources the moral demand to do just that is supported by the responsibility to protect r2p doctrine with which the international community committed itself in 2005 6 to protect civilians from mass atrocities and marked a milestone in international politics since it changed the definition of state sovereignty from sovereignty as authority to sovereignty as responsibility this includes a sovereign s responsibility towards his own people but also towards people outside of his jurisdiction but how effective is r2p in practice is it a mere norm without any implications for action or is it even legally binding in obliging states to protect civilians in cases of mass atrocities if so why does the un not react and intervene in syria this book examines the responsibility to protect doctrine in its legal and political dimensions and will thus provide some answers to the questions that occupy the general public a practical approach to understanding social work concepts in action that integrates theory and practice in this updated edition of the classic social work text students and instructors have access to real world demonstrations of how social work theories and concepts can be applied in practice the case studies in this book bridge the gap between the classroom and the field by allowing students to discover the when why and how of social work principles brief but comprehensive topic overviews are brought to life by case studies that apply general theories to the work of social work each of the book s nine sections cover an essential area of social work encompassing the micro mezzo and macro levels highly readable explanations are followed by 3 5 case studies relating theory to the living practice of real social workers topics include generalist practice family therapy treatment of adults and diversity approaching each topic from a variety of different theoretical bases this essential text allow students to learn by concrete example experiencing social work concepts as they are applied in the profession today the four volume set lncs 11583 11584 11585 and 11586 constitutes the proceedings of the 8th international conference on design user experience and usability duxu 2019 held as part of the 21st international conference hci international 2019 which took place in orlando fl usa in july 2019 the total of 1274 papers and 209 posters included in the 35 hci i 2019 proceedings volumes was carefully
