National Tax Policy in Europe 2013

why would an authoritarian regime expand social welfare provision in the absence of democratization yet china the world s largest and most powerful authoritarian state has expanded its social health insurance system at an unprecedented rate increasing enrollment from 20 percent of its population in 2000 to 95 percent in 2012 significantly people who were uninsured such as peasants and the urban poor are now covered but their insurance is less comprehensive than that of china s elite with the wellbeing of 1.4 billion people and the stability of the regime at stake social health insurance is now a major political issue for chinese leadership and ordinary citizens in social protection under authoritarianism xian huang analyzes the transformation of china s social health insurance in the first decade of the 2000s addressing its expansion and how it is distributed drawing from government documents filed interviews survey data and government statistics she reveals that chinese leaders have a strategy of stratified expansion perpetuating a particularly privileged program for the elites while developing an essentially modest health provision for the masses she contends that this strategy effectively balances between elites and masses to maximize the regime s prospects of stability in china s multilevel governance both centralized and decentralized structures are involved in the distribution of social health insurance when local leaders implement the stratified expansion of social health insurance they respond to varied local conditions as a result china s health insurance policies differ dramatically across subnational regions as well as socioeconomic groups providing an in depth look into china s health insurance system this book sheds light not only on chinese politics but also on how social benefits function in authoritarian regimes and decentralized multilevel governance settings

Food Policy in the United States 2019

an overview of health care politics and policy featuring both an historical review of the development of health care policy in the us and an analysis of recent health care reform efforts the book emphasises the role of the state and federal government and the private sector in health policy

Making Policies Work 1996

this book takes a long term view of environmental policy in poland which thus serves as an example to increase our understanding of environmental policy making in general in the former eastern bloc countries the perspective adopted also includes the pre transition period since the transformation process cannot be understood without reference to the preceding period the book investigates the driving forces underlying policy changes both prior to and after the transition and identifies elements both of change and continuity topics that have hitherto been neglected in the literature a change of political system in poland did not lead to a major change in the thrust of environmental policy the policy makers adopted a cautious approach to new instruments and institutions during the transition period what did change with the transition was the implementation aspect the effectiveness of environmental policy increased dramatically after the abolition of socialism the rule of law meant that the state administration and the polluters were subordinated to the legal system thus increasing the power to environmental policy readership researchers and students interested in the environment and the countries in transition

Public Policy in the United States 2020-08-14

no previous book has pulled together into one place a single comprehensive volume that provides up to date coverage of state government and politics along with the states current and future public policies this new book does just that offering students scholars citizens policy advocates and state specialists accessible information on state politics and policy in 34 topical chapters written by experts in the field the guide provides contemporary analysis of state institutions processes and public policies along with both historical and theoretical perspectives that help readers develop a comprehensive understanding of the 50 u s states complex and changing political spheres those who use this volume from experienced scholars to neophytes can rely upon the guide to provide basic factual information on state politics and policy core explanatory frameworks and competing arguments insightful coverage of major policy areas as they have played out in the states
