Engage Literacy, Teacher's Resource 2011-01-01 an up close look at the education arms race of after school learning academic competitions and the perceived failure of even our best schools to educate children beyond soccer leagues music camps and drama lessons today s youth are in an education arms race that begins in elementary school in hyper education pawan dhingra uncovers the growing world of high achievement education and the after school learning centers spelling bees and math competitions that it has spawned it is a world where immigrant families vie with other americans to be at the head of the class putting in hours of studying and testing in order to gain a foothold in the supposed meritocracy of american public education a world where enrichment centers like kumon have seen 194 percent growth since 2002 and target children as young as three even families and teachers who avoid after school academics are getting swept up drawing on over 100 in depth interviews with teachers tutors principals children and parents dhingra delves into the why people participate in this phenomenon and examines how schools families and communities play their part moving past tiger mom stereotypes he addresses why asian american and white families practice what he calls hyper education and whether or not it makes sense by taking a behind the scenes look at the scripps national spelling bee other national competitions and learning centers dhingra shows why good schools good grades and good behavior are seen as not enough for high achieving students and their parents and why the education arms race is likely to continue to expand

Comprehensive Reading Intervention in Grades 3-8 2018-09-27 in recent years linguists have increasingly turned to the cognitive sciences to broaden their investigation into the roots and development of language with the advent of cognitive linguistic usage based and complex adaptive models of language linguists today are utilizing approaches and insights from cognitive psychology neuropsychology social psychology and other related fields a key result of this interdisciplinary approach is the concept of entrenchment the ongoing reorganization and adaptation of communicative knowledge entrenchment posits that our linguistic knowledge is continuously refreshed and reorganized under the influence of social interactions it is part of a larger ongoing process of lifelong cognitive reorganization whose course and quality is conditioned by exposure to and use of language and by the application of cognitive abilities and processes to language this volume enlists more than two dozen experts in the

fields of linguistics psycholinguistics neurology and cognitive psychology in providing a realistic picture of the psychological and linguistic foundations of language contributors examine the psychological foundations of linguistic entrenchment processes and the role of entrenchment in first language acquisition second language learning and language attrition critical views of entrenchment and some of its premises and implications are discussed from the perspective of dynamic complexity theory and radical embodied cognitive science
