Rankings and the Mediatization of Higher Education

## ***Global Rankings and the Geopolitics of Higher Education 2016-11-18***

global rankings and the geopolitics of higher education is an examination of the impact and influence that university rankings have had on higher education policy and public opinion in recent years bringing together some of the most informed authorities on this very complex issue this edited collection of specially commissioned chapters examines the changes affecting higher education and the implications for society and the economy split into four interrelated sections this book covers the development of rankings in higher education how they have impacted upon both the production of knowledge and its geography and their influence in shaping policymaking overviews of the significance of rankings for higher education systems in europe asia africa russia south america india and north america an analysis of rankings in relation to key concerns that pervade contemporary higher education examination of the role rankings are likely to play in the future directions for higher education this is a significant scholarly work that analyses in depth an important development in higher education systems and which is likely to have an important influence upon how we understand the higher education policy making process past present and future it provides new analysis and conceptual understanding for researchers and firm evidence for policy makers to use when addressing the value of rankings in measuring the quality of their institutions besides bringing together a powerful cast of academics this book incorporates contributions from heads of important international higher education organisations from both those involved in making and also in administering key decisions this timely reflective and accessible book forms crucial reading for those studying the subject of rankings as well as the broader implications and unintended consequences of rankings on national higher education policies

extending beyond academic researchers and students this book will also be of significant interest to policymakers higher education leaders and key stakeholders

## ***Global University Rankings 2013-09-26***

global university rankings explores the novel topic of global university rankings and their effects on higher education in europe the contributions in this volume outline different discourses on global university rankings and explore the related changes concerning european higher education policies disciplinary traditions and higher education institutions the first global university rankings were published less than a decade ago but these policy instruments have become highly influential in shaping the approaches and institutional realities of higher education the rankings have portrayed european academic institutions in a varying light there is intense reflexivity over the figures leading to ideational changes and institutional adaptation that take surprisingly similar forms in different european countries the contributions in this book critically assess global university rankings as a policy discourse that would seem to be instrumental to higher education reform throughout europe

## **The Global Academic Rankings Game 2016-03-02**

the global academic rankings game provides a much needed perspective on how countries and universities react to academic rankings based on a unified case methodology of eleven key countries and academic institutions this comprehensive volume provides expert analysis on this emerging phenomenon at a time when world rankings are becoming increasingly visible and influential on the international stage each chapter provides an overview of government and national policies as well as an in depth examination of the impact that rankings have played on

policy practice and academic life in australia chile china germany malaysia the netherlands poland russia turkey the united kingdom and the united states the global academic rankings game contributes to the continuing debate about the influence of rankings in higher education and is an invaluable resource for higher education scholars and administrators as they tackle rankings in their own national and institutional contexts

## **Global University Rankings and the Politics of Knowledge** **2021**

analysing rankings in diverse higher education settings this book draws on discourse analysis theory ethnography and case studies to consider the question of how knowledge is produced and shared

## ***Impact of Global University Ranking Systems on Developing Countries 2023***

the book seeks to offer an opportunity to scholars and other stakeholders from the global south to offer their perspectives on the impact of the global ranking systems on developing countries and more particularly the global south the contributions made in the book will be in the form of case studies that will offer in depth reports on the subject domain full research papers that will investigate a specific thematic area on university ranking systems and conceptual papers that will synthesise existing studies the book will be an additional resource for discussion and discourse as far as the global university ranking systems are concerned and open new frontiers for further

research especially as relates to the global south

## **In Pursuit of World-Class Universities *2018-03-10***

the pursuit to construct world class universities is an ongoing global obsession across the world which lays emphasis on the development of competitive higher education and research systems as core national economic approach the portrayal world class is more contextual rather than absolute the expression world class university has an irrefutable cachet there is no solo clear cut definition of what organises a world class university wcu but there are few common attributes that majority of the experts point towards the three attributes stated by philip altbach and jamil salmi that focus on a high concentration of talent abundant resources and favourable governance have been widely discussed in writings and practice both in developing and developed countries policymakers and higher education leaders are attempting to identify and outline their desires and plans aimed at achieving global ranking for their university universities despite condemnation of the methodology the choice of indicators and weightings and the reliability and quality of data used for comparing performance the obsession for constructing world class universities has increased over the period of time but how much do we really discern or comprehend regarding the ranking systems what do the rankings really measure do rankings measure the quality and help in attaining the broad assignment of higher education does the competition as outcome of ranking raise standards is the ranking system an apposite instrument to frame higher education policies this edited volume tries to look at the concept of world class universities in milieu of different countries of the world and explore their experiences either in existing wcus or constructing wcu or attempting to create wcu the country based chapters show differentiated paths of achievements and their approach towards the concept of wcu

## **The Global University Rankings 2022-12-20**

this book is intended to provide the reader a thorough grasp on global university ranking systems gurs many educational authorities throughout the world have recently started regularly assessing the effectiveness of their educational institutions based on their global rankings moreover some institutions use the indicators of these rankings as an objective in their strategic plan however many academics do not trust such systems believing that they deceive their educational institutions that these rankings are inaccurate and may be biased and thus do more harm to their universities programmes than good in this book the author draws attention to the role of higher education institutions and how important it is to make global ranking indicators part of their strategic plans and thus it is imperative for all academic and administrative members to work together on planning and implementing them in order to advance the academic performances and strengthen those indicators which consequently leads to raising their rankings at the league tables of the major global university rankings gurs the author discusses the ranking indicators from the perspective of academic performance and focuses on the challenges facing higher education institutions at various levels especially improving the five main academic pillars that the rankings outcomes are based on teaching and learning research and publishing strategic planning internationalisation and reputation

## **The Impact of Higher Education Ranking Systems on Universities 2021-04-05**

this book written by three generations of rankings academics with considerable experience from

three very different regions of the globe lifts the lid on the real impact of higher education ranking systems here on universities and their stakeholders it critically analyses the criteria that make up the big three global ranking systems and using interviews with senior administrators academics and managers discusses their impact on universities from four very different continents higher education continues to be dominated by a reputational hierarchy of institutions that sustains and is reinforced by here despite all the opinions and arguments about the legitimacy of the rankings as a construct it seems experts agree that they are here to stay the question therefore seems to be less about whether or not universities should be compared and ranked but the manner in which this is undertaken delivering a fresh perspective on global rankings this book summarizes the development of here and provides a critical evaluation of the effects of here on four different major regions south africa the arab region south east asia and australia it will appeal to any academic student university administrator or governing body interested in or affected by global higher education ranking systems

## **Global Liveable And Smart Cities Index: Ranking Analysis, Simulation And Policy Evaluation 2019-11-15**

a rising proportion of the global population are moving to cities in search of a better standard of living however although urbanisation has its benefits unchecked urbanisation can lead to a host of challenges such as congestion and limited access to public services as such the concept of urban liveability has been garnering more attention from policymakers and academics who are interested in mitigating the negative effects of urbanisation in this context the asia competitiveness institute aci has released the 2018 global liveable and smart cities index glsci the third in its series of liveability indices the glsci attempts to measure the liveability of an average resident in a city more

importantly this year's edition has added considerations to the concept of smart cities and the role that these technologies can play in augmenting the liveability of a city's residents it also builds on acis past liveability indices by expanding the number of cities in the index to 78 notably with african cities for the first time in addition this book includes two case studies on liveability the first one concerns the relationship between a city's liveability smartness connectivity and agglomeration while the other is a case study on the 99 year lease of public housing in singapore

## **Rankings and Global Knowledge Governance 2018-02-14**

higher education and innovation policies are today seen as central elements in national economic competitiveness increasingly measured by global rankings the book analyses the evolution of indicator based global knowledge governance where various national attributes have been evaluated under international comparative assessment reflecting this general trend the shanghai ranking first published in 2003 has pressured governments and universities all over the world to improve their performance in global competition more recently as global rankings have met criticism for their methodology and scope measurements of various sizes and shapes have proliferated some celebrating novel methodological solutions others breaking new conceptual grounds this book takes a fresh look at developments in the field of knowledge governance by showing how emerging indicators innovation indexes and subnational comparisons are woven into the existing fabric of measurements that govern our ideas of higher education innovation and competitiveness this book argues that while rankings are becoming more numerous and fragmented the new knowledge products nevertheless tend to reproduce ideas and practices existing in the field of global measurement

## ***Global Inequalities and Higher Education 2010-06-16***

discussions on globalization now routinely focus on the economic impact of developing countries in asia africa the middle east the former soviet union and latin america only twenty five years ago many developing countries were largely closed societies today the growing power of emerging markets is reordering the geopolitical landscape on a purchasing power parity basis emerging economies now constitute half of the world s economic activity financial markets too are seeing growing integration asia now accounts for 1 3 of world stock markets more than double that of just 15 years ago given current trajectories most economists predict that china and india alone will

account for half of global output by 2050 almost a complete return to their positions prior to the industrial revolution how is higher education shaping and being shaped by these massive tectonic shifts as education rises as a geopolitical priority it has converged with discussions on economic policy and a global labor market as part of the routledge studies in emerging societies series this edited collection focuses on the globalization of higher education particularly the increasing symbiosis between advanced and developing countries bringing together senior scholars journalists and practitioners from around the world this collection explores the relatively new and changing higher education landscape

## ***Poland and the global information society 2002***

equality an authoritative definitive volume and the first global take on a subject that is grabbing headlines as well as preoccupying policy makers scholars and teachers around the world edited by distinguished leaders in the field features contributions from an illustrious list of experts and scholars the wiley handbook of global educational reform will be of great interest to scholars and graduate students of education throughout the world as well as the policy makers who can institute change

## **Higher Education in the Global Age 2013-11-20**

this ground breaking and exhaustive analysis of university ranking surveys scrutinizes their theoretical bases methodological issues societal impact and policy implications providing readers with a deep understanding of these controversial comparators the authors propose that university rankings are misused by policymakers and institutional leaders alike they assert that these interested parties overlook the highly problematic internal logic of ranking methodologies even as they obsess over the surveys assessment of their status the result is that institutions suffer from short termism realigning their resources to maximize their relative rankings while rankings are widely used in policy and academic discussions this is the first book to explore the theoretical and methodological issues of ranking itself it is a welcome contribution to an often highly charged debate far from showing how to manipulate the system this collection of work by key researchers aims to enlighten interested parties

## ***The Wiley Handbook of Global Educational Reform*** **2018-08-30**
