portals present unique strategic challenges in the academic environment their  
conceptualization and design requires the input of campus constituents who  
seldom interact and whose interests are often opposite the implementation of  
a portal requires a coordination of applications and databases controlled by  
different campus units at a level that may never before have been attempted  
at the institution building a portal is as much about constructing intra  
campus bridges as it is about user interfaces and content designing portals  
opportunities and challenges discusses the current status of portals in  
higher education by providing insight into the role portals play in an  
institution s business and educational strategy by taking the reader through
