this book is deeply rooted in the african cultural realism in which the concept of mawu or god existed before the arrival of the missionaries from europe krobo culture has always accepted and expressed the presence of the supreme creator in all without exception aspects of social occupational emotional engagements of life throughout the book there are illustrations depicting the essence of god in krobo traditional religion before the arrival of christian missionaries from europe the only new concept my ancestors acquired from the missionaries was the story of the life and teaching of christ and the doctrine as the savior and mawu second person in the trinity at the same time krobo culture eloquently and sincerely found expression in names like mawulede god s wish mawulepee god did it mawu le ha

nor it is god who provides and in sentences expressing hope as in mawu nge god lives
mawumaalewor god would care for us and others all of which existed before the story of the cross the
book is the manifestation of what is happening today with the gospel and tradition on the continent
with the self acclaimed preachers of the gospel and how they have misrepresented the whole doctrine
of christianity to acquire wealth rather than preaching salvation to the people of africa these preachers
i refer to as false prophets and mostly blasphemers who have taken undue advantage of the ignorance
of the people of africa wisely because religion is part and parcel of life in the african society this book
goes at length to delineate christian influence on the cultural values in africa using the krobo
experience and to display cultural traits and interaction with the missionaries it will also go into
christian tradition and the african tradition which apparently would lead us into the training of the clergy
and show why christianity is being represented deceptively by false prophets in africa and sometimes
at the expense of our tradition there will be a discussion on krobo culture and the gospel as well as
cultural norms that affect christians the most a full discussion depicts the world of blasphemy which

preachers and people call it christianity but which i term victims of christianity it is very important to admire our traditional saints and show the similarities with the religious saints and who are the traditional saints anyhow in the end i conclude with a discussion on poverty spelling out the tradition that must be reformed to diminish poverty which is portrayed in the book as the enemy of culture and development this book is relevant for contemporary religious and cultural appreciation what it is to be christian and african no less than the proper training of the clergy that befits the african society before they are shipped to africa or any other developing country with different cultural orientation for adaptation

written and the language used is also easy to understand hence little or no further explanation is needed the book teaches how to choose examination questions and answer them without sweat sample outlines plans and sample essays have been written to guide pupils and students the bonus success secrets will help pupils and students to pass in all seemingly difficult subjects like mathematics and science the bonus success secrets will also guide pupils and students towards the attainment of greater success in life the book has been designed in such a way that it can be used for examination purposes and for other practical uses in the day to day life of whoever uses it faithfully in writing this book on english language essay writing i decided to move away from the traditional way of some authors flooding their english language essay writing books with so many sample essays based on my experiences as an english teacher some years back many pupils students have the habit of memorizing written essays found in books and reproduce them during examinations class exercises or when given project home work when they see that the question being asked is similar to the answered one they came across i hope the experts in the educational sector will agree with me that this does

not augur well for the proper development of the child because he she would not have the opportunity to think and plan on his her own before writing a script with originality i stand to be corrected if i am mistaken it is in line with this that i have given only single sample essays per essay topic treated with more suggested outlines plans most people often fail to plan their lives and this usually have disastrous effects on them also in writing examination most candidates fail to plan their essays before answering selected questions as the old adage says if you fail to plan you plan to fail it is based on the above that in writing this book i dedicated the first chapter to the basics of essay writing below is an excerpt of chapter one of the book after high lighting on the basics of essay writing i went ahead to discuss what paragraphs are and how they can be used in our daily writings this is followed by the use of punctuation marks here again i have given a comprehensive write up as to how punctuation marks can be used to enrich our written works other topics covered in the book are writing of narrative essays descriptive essays friendly letters semi formal letters summary writing argumentative essays speeches and talks report writing articles for publication expository essays and advertisement after a

comprehensive logical and coherent treatment of each topic i followed up with sample questions outlines plans and essays these are only to serve as a guide to users of the book i will like to take this opportunity to entreat teachers to encourage pupils students whom they teach to learn how to write an outline plan and to use it when answering essay related questions not only with english language but with all other subjects that they deem it fit to apply some people may not see the usefulness of the outline plan but it helps the pupil stude

have you paused for a second to consider the power behind the great innovations we see around us these days the internet computers aeroplanes cell phone technology drone photography multimedia stuff led ads etc what do all these inventions have in common well these are all products of the human mind the creator of the universe endowed humans with an exceptional gift which when well harnessed enables us to think and solve problems how well we use this gift of the mind is the subject matter of

this book written by mawuli dzitse in relatively few pages the author establishes the important role the mind plays in our lives any manipulation of the mind has a telling effect on who we are and what we become the mind is like an independent variable the state of the dependent variable revolves around it so what happens when the mind is in a doubtful state a doubtful mind does not necessarily have to result in negative developments in fact doubt generates creativity when used in moderation doubt can be a welcoming asset in the society it is a mover for social change nevertheless doubt can be pathological if it is not managed properly it is the prevention of negative aspects of doubt that the author focuses in this book the underlying tone of the book posits that every human being has the capacity to use their mind to produce outcomes that can improve the quality of life than the one they came to meet mawuli provides answers to questions aimed at enhancing individual outlook on life as well as strategies for making the mind clean healthy and functional in other words how individuals should nurse and nurture their mind food which he identifies as information and messages he advises readers to avoid activities that can kill dreams the book is spiced with biblical quotations to lubricate

the mind and provide spiritual wisdom to the reader in addition the author provides practical exercises in self post reading discernment sections that allow the reader to have hands on training and the feel of what is being advocated

the nigerian condition has been the subject of conversation among writers policymakers and market men and women there is no where the subject is not broached or discussed and often solutions are proffered from the rational to the mundane this is to be applauded because a culture of debate is to be preferred to silence as it is a national asset indeed it is the duty of the ruling elite within the state sphere to distil the feedback from the citizenry and turn it into an outcome that is healthy for the polity
