

Linux is a free operating system kernel. It is the core of the Linux operating system, which is a Unix-like operating system. It is developed and maintained by the Linux Foundation and other organizations.

## Linux

1972

Linus Torvalds started the Linux kernel in 1991. It was initially developed as a hobby project. The kernel is now the core of the Linux operating system, which is used by millions of people around the world.

## Linux LPIC 1 Version 5.0

2019-04-08

The LPIC 1 certification is a four-level lower secondary course which makes sure that students are confident and future ready through a combination of global topics collaborative projects and strategies to develop learner independence we live in a rapidly changing world with own it teens develop the confidence and competencies they need to forge their own path in this ever evolving global landscape from developing critical and creative thinking skills and social emotional aptitudes to working effectively in a group own it helps create confident future ready learners the workbook offers extra practice of the language covered in the main student s book unit and is perfect for homework it includes extra vocabulary and grammar practice as well as reading writing listening and speaking plus a special exam preparation feature
