American Drama in the Age of Film 2007-06-28 is theater really dead does the theater as its champions insist really provide a more intimate experience than film if so how have changes in cinematic techniques and technologies altered the relationship between stage and film what are the inherent limitations of representing three dimensional spaces in a two dimensional one and vice versa american drama in the age of film examines the strengths and weaknesses of both the dramatic and cinematic arts to confront the standard arguments in the film versus theater debate using widely known adaptations of ten major plays brietzke seeks to highlight the inherent powers of each medium and draw conclusions not just about how they differ but how they ought to differ as well he contrasts both stage and film productions of among other works david mamet sglengarry glen ross sam shepard strue west edward albee swho s afraid of virginia woolf margaret edson swit tony kushner sangels in america tennessee williams scat on a hot tin roof arthur miller sdeath of a salesman and august

wilson sthe piano lesson in reading the dual productions of these works brietzke finds that cinema has indeed stolen much of theater s former thunder by making drama more intimate and visceral than most live events but theater is still vital and matters greatly brietzke argues though for reasons that run counter to many of the virtues traditionally attributed to it as an art form such as intimacy and spontaneity brietzke seeks to revitalize perceptions of theater by challenging those common pieties and offering a new critical paradigm one that champions spectacle and simultaneity as the most not least important elements of drama

International Postmodernism 1997-02-20 containing more than fifty essays by major literary scholars international postmodernism divides into four main sections the volume starts off with a section of eight introductory studies dealing with the subject from different points of view followed by a section that deals with postmodernism in other arts than literature while a third section discusses renovations of narrative genres and other strategies and devices in postmodernist writing the final and fourth section deals with the reception and processing of postmodernism in different parts of the world three important aspects add to the special character of international postmodernism the consistent distinction between postmodernity and postmodernism equal attention to the making and diffusion of postmodernism and the workings of literature in general and the focus on the text and the reader i e the reader s knowledge experience interests and competence as crucial factors in text interpretation this comprehensive study does not expressly focus on american postmodernism although american interpretations of postmodernism are a major point of reference the recognition that varying literary and cultural conditions in this world are bound to produce endless varieties of postmodernism made the editors hans bertens and douwe fokkema opt for the title international postmodernism

Rereading Shepard 1993-02-15 rereading shepard draws together 13 original theoretical perspectives on one of america s most important contemporary playwrights representing a range of critical approaches including semiotics deconstruction and feminism the essays address recent debates emerging in shepard criticism these include the status of shepard s texts within the modernist tradition on the one hand and a developing post modernism on the other and the feminist debate over shepard s drama does it reinforce a masculinist world or does it provide some oppositional stance toward patriarchal master narratives

A Literary History of the American West 1987 literary histories of course do not have a reason for being unless there exists the literature itself this volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the american west believing that experiences long knowns to be of historical importance are also experiences that need and deserve a literature of importance
