Total Energy Solutions: Fact Book FY 2002, Twenty-Fifth Edition 1968

as the result of disposal practices from the early to mid twentieth century approximately 250 sites in 40 states the district of columbia and 3 territories are known or suspected to have buried chemical warfare materiel cwm much of this cwm is likely to occur in the form of small finds that necessitate the continuation of the army s capability to transport treatment systems to disposal locations for destruction of greatest concern for the future are sites in residential areas and large sites on legacy military installations the army mission regarding the remediation of recovered chemical warfare materiel rcwm is turning into a program much larger than the existing munition and hazardous substance cleanup programs the army asked the nation research council nrc to examine this evolving mission in part because this change is significant and becoming even more prominent as the stockpile destruction is nearing completion one focus in this report is the current and future status of the non stockpile chemical material project nscmp which now plays a central role in the remediation of recovered chemical warfare materiel and which reports to the chemical materials agency remediation of buried chemical warfare materiel also reviews current supporting technologies for cleanup of cwm sites and surveys organizations involved with remediation of suspected cwm disposal sites to determine current practices and coordination in this report potential deficiencies in operational areas based on the review of current supporting technologies for cleanup of cwm sites and develop options for targeted research and development efforts to mitigate potential problem areas are identified

Aberdeen Proving Ground, Transportable Treatment Systems for Non-stockpile Chemical Warfare Materiel 1978

this book discusses risk management as it applies to problem solving for simple complex and wicked problems faced by policy creators and implementors project managers and systems engineers in the context of policies large engineering projects leps projects and systems when applying systems thinking to risk management it can be seen that risk management applies to almost every action taken in daily life this book introduces the systems approach of integrating risk management into policy creation and implementation project management and systems engineering

such as the risk framework and the firm fixed price ffp contract with penalties and bonuses introduces a number of out of the box concepts building on the application of the systems thinking tools in the system thinker s toolbox points out that integrating risk management into policy and project management and systems engineering is just good management and engineering practice discusses the flow of risk in a policy from creation through implementation via leps and simpler projects identifying where risks arise and where they should be dealt with presents the risks in the relationship between policy creation implementation project management and systems engineering discusses risks throughout the policy implementation process and shows how the nature of risks changes from political to financial to technological as implementation proceeds discusses managing complexity and specifies the minimum number of elements in a system for it to be defined as and managed as complex points out that in most instances the traditionally ignored major implementation risk is that of poor performance by personnel shows how to proactively incorporate prevention into planning in order to prevent risks as well as how to mitigate them when they occur
