Collecting Cultures 2010 detailing the unfolding discovery of a crucial link in our evolution this book is written in the voice of walker whose involvement with proconsul began when his graduate supervisor analyzed the tree climbing adaptations in the arm and hand of this extinct creature today proconsul is the best known fossil ape in the world

Fishes of the George Vanderbilt Expedition 1937 2007-12 the first volume compiles the results of an ethnographical research expedition in the torres strait new guinea and borneo

The Ape in the Tree 2005 fully revised for its third edition the oxford handbook of expedition and wilderness medicine continues to be the essential resource for all expedition medics and well informed travellers as well as nurses paramedics medical students and other expedition members travelling in remote wilderness areas of the world now containing more guidance about caving medicine the third edition includes revised and additional illustrations and essential maps of the spread of diseases clear and concise readers can rely on this handbook to provide the key knowledge and practical advice they need it enables efficient preparation and planning before the journey advises on camp logistics risk management and medical problems during the expedition as well as highlighting rare but important risks to those visiting remote areas focusing on preventative measures it also contains chapters dealing with crisis management emergency care and evacuation from challenging environments with guidance about the obligations of a clinician joining an expedition ethical approaches to such work and medicine in various extreme environments this edition will give you the confidence and skills you need to travel to any extreme or remote environment incorporating the combined knowledge and experience of a team of experienced clinicians and expeditioners this is a practical easy to use guide to all aspects of expedition and wilderness medicine

Den Norske Nordhavs-expedition, 1876-1878 1885 features recommendations and ratings on hundreds of small medium and large sized cars based on quality economy

performance and comfort standards with judgments on crash protection and assessments of available options

Reports of the Cambridge Anthropological Expedition to Torres Straits: Volume 1, General Ethnography 2011-02-17 when the corps of discovery left the vicinity of st louis in 1804 to explore the american west they had only sketchy knowledge of the terrain that they were to cross existing maps often contained large blank spaces and wild inaccuracies william clark painstakingly mapped every mile of the journey drawing from both direct observation and from the reports of indians and a few fur traders on their return lewis and clark directed the execution of new maps detailing with remarkable accuracy the features of the country that they had traversed

Oxford Handbook of Expedition and Wilderness Medicine 2023-07-21 the journey of the corps of discovery under the command of captains meriwether lewis and william clark across the american west to the pacific ocean and back in the years 1804 1806 seems to me to have been our first really american adventure one that also produced our only really american epic the journals of the lewis and clark expedition now at last available in a superbly edited easily read edition in twelve volumes of an eventual thirteen almost two centuries after the corps of discovery set out this important text has not been fully appreciated for what it is because of two centuries of incomplete and inadequate editing all three editions previous to this excellent one from the university of nebraska were flawed by significant omission thus my gratitude to the present editor gary moulton and his assistant editor thomas dunlay for bringing what i believe to be a national epic into plain view at last for almost two hundred years their lewis and clark s strong words waited there but not there printed but not read our silent epic but words can wait now the captains writings have at last spilled out and fully in this regal edition when the atlas of the lewis and clark expedition appeared in 1983 critics hailed it as a publishing landmark this eagerly awaited second volume of the new journals of the lewis and clark expedition begins the actual journals of those explorers whose epic expedition still enthralles americans instructed by president jefferson to keep meticulous records bearing on the geography ethnology and natural history of the trans mississippi west meriwether lewis and william clark and four of their men filled hundreds of notebook pages with observations during their expedition of 1804 6 the result was in is a national treasure a complete look at the great plains the rockies and the pacific northwest reported by men who were intelligent and well prepared at a time when almost nothing was known about those regions so newly acquired in the louisiana purchase volume 2 includes lewis s and clark s journals for the period from august 1803 when lewis left pittsburgh to join clark farther down the ohio river to august 1804 when the corps of discovery camped near the vermilion river in present south dakota the general introduction by gary e moulton discusses the history of the expedition the journal keeping methods of lewis and clark and the editing and publishing history of the journals from the time of lewis and clark s return superseding the last edition published early in this century the current edition brings together new materials discovered since then it greatly expands and updates the annotation to take account of the most recent scholarship on the many subjects touched on by the journals

Consumer Reports Used Car Buying Guide [2005] 2005 this volume offers a rigorous yet accessible overview of the key questions and intersectional approaches pertaining to american literature and the body the chapters have been written in an accessible style making them useful for undergraduates as well as for more experienced researchers
