in culture and society in medieval galicia twenty three international authors examine art religion literature and politics to chart galicia s changing place in iberia europe and the mediterranean and atlantic worlds from late antiquity through the thirteenth century this alphabetically organized guide introduces popular terms used in the study of language and society it provides full coverage of both traditional and contemporary terminology including the relatively new areas within sociolinguistics of sign language gay language and cross cultural communication the amerindian peoples of guiana the geographical region of north east south america have long been recognized as forming a distinct variety of the tropical forest culture in this book peter rivièrè employs a comparative perspective to reveal that guianan societies generally characterized as socially fluid and amorphous are in fact much more highly structured than they first appear and he identifies certain common patterns of social organization that result from sets of individual choices and relationships by contrasting the characteristics of guianan society with those from elsewhere in lowland south america he constructs a spectrum of complexity of amerindian social structure and argues that the guianan variant represents the logically simplest form of organization in the area peter drucker may be best known especially in the united states as a writer on business and management but in fact these subjects are neither his first nor have they been his foremost intellectual concern most of his books on management deal less with strategy and results than with the nature of the corporation as

an expression of human effort and a social institution from the time of his intellectual apprenticeship in europe to the present day drucker s primary concern has been community in which the individual has status and society in which the individual has function he has brought together selections from his vast writings on these subjects in a functioning society the materials in this volume are drawn both from his published books and from previously uncollected writings together they present the full range of drucker s thought on community society and the political structure and constitute an ideal introduction to his ideas the volume is divided into seven parts the selections in parts 1 and 2 were mostly written during world war ii and in the wake of the great depression they seek to define the functioning society in the modern industrial world from a historical perspective and to identify institutions that could recreate community the collapse of which produced totalitarianism in europe part 3 deals with the limits of governmental competence in the social and economic realm it contains some of drucker s most influential writings concerned as he is here with the difference between big government and effective government the chapters in part 4 explore the rise of organizations or autonomous centers of power outside of government and within society these include business corporations but also universities unions hospitals and community organizations part 5 contains chapters from drucker s pathbreaking work on the corporation as a social organization rather than merely an economic one this was a controversial concept in 1946 today it is taken for granted the rise of the so called knowledge industries forms the background for part 6 in which drucker explores the meaning of the shift from a society economy and polity based on manual work and skill to one based on knowledge and knowledge workers the concluding part 7 is devoted entirely to drucker s long essay the next society here drucker examines the emergence of new institutions and new theories arising from the information revolution and the social changes they are helping to bring about in organizing these representative writings drucker has chosen to be topical rather than merely chronological with each excerpt presenting a basic theme of his work he selected his contributions as well for their literary quality and accessibility to the general reader as is characteristic of his work a functioning society will attract both the general reader as well as a cross disciplinary scholarly readership collection of previously published articles and papers foreword by alexander spoehr president of the american anthropological association non aboriginal material language and society is a broad introduction to the interaction of language and society intended for undergraduate students majoring in any academic discipline the book discusses the complex socio political roles played by large dominant languages around the world and how the growth of major national and official languages is threatening the continued existence of smaller minority languages as individuals adopt new ways of speaking many languages are disappearing others are evolving into hybrid languages with distinctive new forms and even long established languages are experiencing significant change with young speakers creating novel expressions and innovative pronunciations making use of a wide range of case studies selected from the americas europe asia and africa andrew simpson describes and explains key factors causing language variation and change which relate to societal structures and the expression of group and personal identity Â the volume also examines how speakers knowledge of language acts as an important force controlling access to education advances in employment and the development of social status Â additional topics discussed in the volume focus on the global growth of english gendered patterns of language use and the influence of language on perception there is currently no reader in print that provides a broad ranging overview for an undergraduate course on the sociology of the arts or the sociology of culture this book remedies this situation as it provides students with an overall understanding of the current issues
