rock dynamics has become one of the most important topics in the field of rock mechanics and rock engineering and involves a wide variety of topics from earthquake engineering blasting impacts failure of rock engineering structures as well as the occurrence and prediction of earthquakes induced seismicity rock bursts to non destructive testing and explorations rock dynamics has wide applications in civil and infrastructural resources and energy geological and environmental engineering geothermal energy and earthquake hazard management and has become one of the most topical areas 2019 rock dynamics summit contains 8 keynote addresses and 128 regular full papers that were presented at the 2019 rock dynamics summit 2019 rds okinawa japan 7 11 may 2019 a specialized conference jointly organized by the rock dynamics committee of the japanese society of civil engineers jsce rdc the japanese society for rock mechanics jsrm and which was supported by the international society for rock mechanics and rock engineering isrm and the turkish national society for rock mechanics tnsrm the contributions cover a wide range of topics on the dynamic behavior of rock and rock masses and scientific and engineering applications and include laboratory tests on dynamic responses of rocks and rock masses fracturing of rocks and associated strong motions estimation procedures and numerical techniques of strong motions associated with the rupture of earth s crust and some strong motion dynamic response and stability of rock foundations underground excavations in rock rock slopes dynamic responses and stability of stone masonry historical structures and monuments induced seismicity dynamic simulation of loading and excavation blasting and machinery induced vibrations rockburst outburst impacts nondestructive testing using shock waves case histories of failure phenomenon in rock engineering 2019 rock dynamics summit contains the state of the art in rock dynamics and will be invaluable to professionals and academics interested in the latest advances in new techniques for experiments analytical and numerical modelling as well as monitoring in dynamics of rocks and rock engineering structures contains papers on mathematics or physics continued by philosophical transactions physical sciences and engineering and philosophical transactions mathematical physical and engineering sciences a the set generally since the publication of its first edition in 1950 the annual review of united nations affairs has stood as the authoritative resource for scholars students and practitioners researching the latest developments of that august body from the insightful introduction prepared each year by a distinguished expert on un affairs to the full text presentation of reports and resolutions and the helpful subject index aruna provides a practical tour of each year s un actions and debates the expert selection of documents by joachim muller and karl sauvant and the topic based organization of those documents make any researcher s task much easier than the vast searching sorting and pruning required by the un s website the series topic based organization of the materials and subject index lend invaluable guidance to all researchers aruna presents comprehensive documentation of the work of the un on an annual basis starting in september of each year with the beginning of the regular sessions of the general assembly coverage of the un s key organs is provided including the general assembly the security council the economic and social council ecosoc the international court of justice and the un secretariat in addition selected reports of intergovernmental bodies and expert groups are included solely official un documentation is used aruna occupies a special place in the publications on the work of the un as it allows readers to obtain an overview of the principal developments in its key organs this makes it an important reference source for policy makers and academic researchers b the 2009 2010 volumes this year s edition continues to focus on the world financial crisis and the reaction of the united nations and the international financial system to that crisis the overview to this year s edition written by joachim muller and karl sauvant examines the changing role of the united nations and explores ways in which the management of the financial crisis has impacted the united nations and its work year s edition also examines the effects of this crisis this introduction is drawn from the introduction using bluej 5th edition by barnes david j kling michael 2011 paperback

commission of experts of the president of the united nations general assembly on reforms of the international monetary and financial system as well as a slightly edited version of a preface to that report written by professor joseph e stiglitz the introduction discusses the findings of the commission and proposes the creation of a new institution a global economic coordination council which would be supported by an international panel of experts with a geographically diverse membership that would represent the interests of emerging and developing countries as well as those of developed countries dr joseph e stiglitz who served as chairman of the commission and wrote the preface to the commission's report holds joint professorships at columbia university's economics department and its business school he is also co-founder and co-president of the initiative for policy dialogue from 1997 to 2000 he was the world bank's senior vice president for development economics and chief economist from 1995 to 1997 he served as chairman of the u.s. council of economic advisers and as a member of president clinton's cabinet from 1993 to 1995 he was a member of the council of economic advisers he was previously a professor of economics at stanford princeton yale and all souls college dr stiglitz is also a leading scholar of the economics of the public sector and was awarded the nobel prize in economics in 2001 in addition to the american economic association's biennial john bates clark award in 1979 his recent publications include freefall america free markets and the sinking of the world economy 2010 making globalization work 2006 fair trade for all 2005 and globalization and its discontents 2002 the 2009 2010 volumes of aruna therefore also devote considerable attention to the financial crisis as well as other international crises among the documents in the 2009 2010 volumes are the complete general assembly resolutions as well as the report and resolutions of the security council and the economic and social council ecosoc annual reports of note include reports of the united nations children's fund unicef the un development programme and un population fund the un high commissioner for human rights the un high commissioner for refugees the un relief and works agency for palestine refugees in the near east and the world food programme mr muller and dr sauvant have also selected progress reports on key peacekeeping peace building and political missions including those for afghanistan the democratic republic of the congo haiti iraq the middle east sudan and west africa c volume iii this volume this volume contains the following chapter 1 general assembly sixty fourth session continued 3 resolutions adopted by the general assembly at its sixty fourth session continued resolutions 64 104 through 64 199 d guest authors of previous years editions each annual edition of aruna is introduced by a guest author a distinguished expert on un affairs who highlights the outstanding themes of the year in review together with an overview provided by the editors this introduction is intended to facilitate access to the material and above all to make it easier for users of aruna to see the forest for the trees this year's aruna includes excerpts from the report of the commission of experts of the president of the united nations general assembly on reforms of the international monetary and financial system 21 sept 2009 and from a slightly edited version of a preface to that report written by professor joseph e stiglitz however the roster of distinguished experts who have contributed this introduction in the past is also worthy of mention jose antonio ocampo aruna 2008 2009 edition professor jose antonio ocampo is co-president of the initiative for policy dialogue he is also professor in the school of international and public affairs and fellow of the committee on global thought at columbia university professor ocampo previously held the positions of under secretary general of the united nations for economic and social affairs executive secretary of the united nations economic commission for latin america and the caribbean and minister of finance agriculture and planning of colombia in 2009 he was a member of the commission of experts of the president of the united nations general assembly on reforms of the international monetary and financial system professor ocampo is also the author of numerous books and articles on macroeconomics policy and theory economic development international trade and economic history his recent publications include stability with growth macroeconomics liberalization and development with joseph e stiglitz shari spiegel ricardo french davis and deepak nayar new york oxford university press 2006 jeffrey d sachs aruna 2007 2008 edition professor jeffrey d sachs is director of the earth institute at columbia university and special advisor to the secretary general of the un on the millennium development goals professor sachs is

~~introduction to aruna 2007 2008 was titled towards a new global protocol on climate change in which~~
he argued that solving the climate change problem will demand four steps scientific consensus public awareness the development of alternative technologies and a global framework for action he dealt in particular with the science underpinning the negotiations for a new global protocol on climate change as a successor to the kyoto protocol professor sachs argued that climate change crises can only be solved through the goals leadership and treaty mechanisms of the un edward c luck aruna 2006 2007 edition professor edward c luck is un special advisor on the responsibility to protect and vice president and director of studies at the international peace academy from 1984 to 1994 he served as president and chief executive officer of the un association of the usa una usa professor luck s introduction to aruna 2006 2007 covered the responsible sovereign and the responsibility to protect in which he addressed the scope and content of what was agreed at the 2005 world summit the implications of the responsibility to protect rtop for notions of state sovereignty and some of the conceptual architectural and policy challenges then facing un secretary general ban ki moon s commitment to operationalizing the responsibility to protect and translating it from words to deeds louise frechette aruna 2005 2006 edition ms louise frechette is distinguished fellow at the centre for international governance innovation waterloo ontario until march 2006 shewas the first deputy secretary general of the un before that she was permanent representative of canada to the un ms frechette s introduction to aruna 2005 2006 covered united nations reform an unfinished story as the first deputy secretary general of the un ms frechette was uniquely positioned to undertake a personal assessment of what has changed and what has not changed in the past decade at the un and why she examined if the un is functioning better than it was 15 years ago why reform is so difficult to achieve and what the future holds for the institutions rubens ricupero aruna 2004 2005 edition mr rubens ricupero is dean of the fundacno armando alvares penteado faap sao paulo and was formerly secretary general of un conference on trade and development unctad and minister of finance of brazil mr ricupero s introduction to aruna 2004 2005 covered the difficulty of building consensus in an age of extremes and examined the mysteries of the negotiating process leading to the outcome of the 2005 world summit rather than a grand bargain of a comprehensive un reform in the areas of development security and human rights it is argued that the summit ended more on a note of lamentation and regret over a missed opportunity mr ricupero concludes that contrary to the daring proclamation at the outset by the secretary general the conditions indispensable to succeed were not in place indeed it was hard to imagine that an ambitious and balanced reform package for the un could have had any real chance of succeeding in this new mesopotamian civilizations volume professor heimpel collects the corpus of the mari correspondence and provides an introduction a reconstruction of events during zimri lim s reign and english translations of these mari texts 26 1 26 2 27 and additional texts this volume includes indexes of personal names individuals group designations personnel and places a burgeoning japanese role in the asia pacific region has been one of the most contentious issues to the southeast asian countries in recent years with its positive and negative implications it is thus timely and significant to come to terms with japan s design in the region from a historical perspective attributing japan s active involvement in southeast asian affairs to the proclamation of the so called fukuda doctrine of august 1977 this study traces the origins of japan s political role in the region and analyses the development and effects of the very first japanese foreign policy doctrine as perhaps the most exclusive scrutiny on the fukuda doctrine as well as japan asean relations this study renders a comprehensive history of japan southeast asia relations in the post war period viewing current developments in materials development through the eyes of developers users and researchers from all over the world this book applies principles to practice it provides a comprehensive coverage of the main aspects and issues in the field as well as critical overviews of recent developments in materials development and acts as a stimulus for innovation now revised and updated to take account of developments over the last decade this 3rd edition features 8 new chapters covering materials use blended learning multimodality intercultural competence communicative competence the practical realisation of objects first with java the development of digital materials the teaching of right to left languages and the introduction of

~~grammar fully updated chapters with contemporary examples and considering teaching second and~~
foreign languages other than english new pedagogical resources with the addition of tasks and further readings for each chapter new online resources 2 new chapters on producing videos on teacher development courses and materials development on teacher training courses and 2 updated chapters on development courses for teachers and simulations in teacher development alongside a range of additional tasks and further reading suggestions the impact of natural disasters has become an important and ever growing preoccupation for modern societies volcanic eruptions are particularly feared due to their devastating local regional or global effects relevant scientific expertise that aims to evaluate the hazards of volcanic activity and monitor and predict eruptions has progressively developed since the start of the 20th century the further development of fundamental knowledge and technological advances over this period have allowed scientific capabilities in this field to evolve hazards and monitoring of volcanic activity groups a number of available techniques and approaches to render them easily accessible to teachers researchers and students this volume sets out different surveillance methods starting with those most frequently used seismic surveillance and deformation it then examines surveillance by remote sensing from ground air and space methods that exemplify one of the most spectacular advances in this field in recent times comprehensive climbing approach route guides to washington s cascades vols for 1868 include the statistical report of the secretary of state in continuation of the annual report of the commissioner of statistics vols for 1868 include the statistical report of the secretary of state in continuation of the annual report of the commissioner of statistics

a the set generally since the publication of its first edition in 1950 the annual review of united nations affairs has stood as the authoritative resource for scholars students and practitioners researching the latest developments of that august body from the insightful introduction prepared each year by a distinguished expert on un affairs to the full text presentation of reports and resolutions and the helpful subject index aruna provides a practical tour of each year s u n actions and debates the expert selection of documents by joachim muller and karl sauvant and the topic based organization of those documents make any researcher s task much easier than the vast searching sorting and pruning required by the u n s website the series topic based organization of the materials and subject index lend invaluable guidance to all researchers aruna presents comprehensive documentation of the work

of the UN on an annual basis starting in September of each year with the beginning of the regular sessions of the General Assembly. Coverage of the UN's key organs is provided including the General Assembly, the Security Council, the Economic and Social Council (ECOSOC), the International Court of Justice and the UN Secretariat. In addition, selected reports of intergovernmental bodies and expert groups are included. Solely official UN documentation is used. ARUNA occupies a special place in the publications on the work of the UN as it allows readers to obtain an overview of the principal developments in its key organs. This makes it an important reference source for policy makers and academic researchers. In the 2009-2010 volumes, this year's edition continues to focus on the world financial crisis and the reaction of the United Nations and the international financial system to that crisis. The overview to this year's edition, written by Joachim Müller and Karl Sauvant, examines the changing role of the United Nations and explores ways in which the management of the financial crisis has impacted that role. The introduction to this year's edition also examines the effects of this crisis. This introduction is drawn from the report of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System, as well as a slightly edited version of a preface to that report written by Professor Joseph E. Stiglitz. The introduction discusses the findings of the Commission and proposes the creation of a new institution, a Global Economic Coordination Council, which would be supported by an international panel of experts with a geographically diverse membership that would represent the interests of emerging and developing countries as well as those of developed countries. Dr. Joseph E. Stiglitz, who served as chairman of the Commission and wrote the preface to the Commission's report, holds joint professorships at Columbia University's Economics Department and its Business School. He is also co-founder and co-president of the Initiative for Policy Dialogue. From 1997 to 2000, he was the World Bank's Senior Vice President for Development Economics and Chief Economist. From 1995 to 1997, he served as chairman of the U.S. Council of Economic Advisers and as a member of President Clinton's cabinet. From 1993 to 1995, he was a member of the Council of Economic Advisers. He was previously a professor of Economics at Stanford, Princeton, Yale, and All Souls College. Dr. Stiglitz is also a leading scholar of the economics of the public sector and was awarded the Nobel Prize in Economics in 2001. In addition to the American Economic Association's Biennial John Bates Clark Award in 1979, his recent publications include *Freefall: America, Free Markets, and the Sinking of the World Economy* (2010), *Making Globalization Work* (2006), *Fair Trade for All* (2005), and *Globalization and Its Discontents* (2002). The 2009-2010 volumes of ARUNA therefore also devote considerable attention to the financial crisis as well as other international crises. Among the documents in the 2009-2010 volumes are the complete General Assembly resolutions, as well as the report and resolutions of the Security Council and the Economic and Social Council (ECOSOC). Annual reports of note include reports of the United Nations Children's Fund (UNICEF), the UN Development Programme, and UN Population Fund; the UN High Commissioner for Human Rights; the UN High Commissioner for Refugees; the UN Relief and Works Agency for Palestine Refugees in the Near East; and the World Food Programme. Mr. Müller and Dr. Sauvant have also selected progress reports on key peacekeeping, peacebuilding, and political missions, including those for Afghanistan, the Democratic Republic of the Congo, Haiti, Iraq, the Middle East, Sudan, and West Africa. C. Volume III: This volume contains the following: Chapter 1: General Assembly, Sixty-fourth Session, Continued; 3 Resolutions adopted by the General Assembly at its sixty-fourth session, Continued; Resolutions 64/104 through 64/199. D. Guest authors of previous years' editions: Each annual edition of ARUNA is introduced by a guest author, a distinguished expert on UN affairs who highlights the outstanding themes of the year in review, together with an overview provided by the editors. This introduction is intended to facilitate access to the material and, above all, to make it easier for users of ARUNA to see the forest for the trees. This year's ARUNA includes excerpts from the report of the Commission of Experts of the President of the United Nations General Assembly on Reforms of the International Monetary and Financial System (21 Sept. 2009) and from a slightly edited version of a preface to that report written by Professor Joseph E. Stiglitz. However, the roster of distinguished experts who have contributed this introduction in the past is also worthy of mention. Jose Antonio Ocampo (ARUNA 2008-2009 edition), Professor Jose Antonio Ocampo, is co-president of the Initiative for Policy Dialogue. He is also professor in the School of

international and public affairs and fellow of the committee on global thought at columbia university professor ocampo previously held the positions of under secretary general of the united nations for economic and social affairs executive secretary of the united nations economic commission for latin america and the caribbean and minister of finance agriculture and planning of colombia in 2009 he was a member of the commission of experts of the president of the united nations general assembly on reforms of the international monetary and financial system professor ocampo is also the author of numerous books and articles on macroeconomics policy and theory economic development international trade and economic history his recent publications include stability with growth macroeconomics liberalization and development with joseph e stiglitz shari spiegel ricardo ffrench davis and deepak nayyar new york oxford university press 2006 jeffrey d sachs aruna 2007 2008 edition professor jeffrey d sachs is director of the earth institute at columbia university and special advisor to the secretary general of the un on the millennium development goals professor sachs s introduction to aruna 2007 2008 was titled towards a new global protocol on climate change in which he argued that solving the climate change problem will demand four steps scientific consensus public awareness the development of alternative technologies and a global framework for action he dealt in particular with the science underpinning the negotiations for a new global protocol on climate change as a successor to the kyoto protocol professor sachs argued that climate change crises can only be solved through the goals leadership and treaty mechanisms of the un edward c luck aruna 2006 2007 edition professor edward c luck is un special advisor on the responsibility to protect and vice president and director of studies at the international peace academy from 1984 to 1994 he served as president and chief executive officer of the un association of the usa una usa professor luck s introduction to aruna 2006 2007 covered the responsible sovereign and the responsibility to protect in which he addressed the scope and content of what was agreed at the 2005 world summit the implications of the responsibility to protect rtop for notions of state sovereignty and some of the conceptual architectural and policy challenges then facing un secretary general ban ki moon s commitment to operationalizing the responsibility to protect and translating it from words to deeds louise frechette aruna 2005 2006 edition ms louise frechette is distinguished fellow at the centre for international governance innovation waterloo ontario until march 2006 shewas the first deputy secretary general of the un before that she was permanent representative of canada to the un ms frechette s introduction to aruna 2005 2006 covered united nations reform an unfinished story as the first deputy secretary general of the un ms frechette was uniquely positioned to undertake a personal assessment of what has changed and what has not changed in the past decade at the un and why she examined if the un is functioning better than it was 15 years ago why reform is so difficult to achieve and what the future holds for the institutions rubens ricupero aruna 2004 2005 edition mr rubens ricupero is dean of the fundacno armando alvares penteado faap sao paulo and was formerly secretary general of un conference on trade and development unctad and minister of finance of brazil mr ricupero s introduction to aruna 2004 2005 covered the difficulty of building consensus in an age of extremes and examined the mysteries of the negotiating process leading to the outcome of the 2005 world summit rather than a grand bargain of a comprehensive un reform in the areas of development security and human rights it is argued that the summit ended more on a note of lamentation and regret over a missed opportunity mr ricupero concludes that contrary to the daring proclamation at the outset by the secretary general the conditions indispensable to succeed were not in place indeed it was hard to imagine that an ambitious and balanced reform package for the un could have had any real chance of succeeding

a burgeoning japanese role in the asia pacific region has been one of the most contentious issues to the southeast asian countries in recent years with its positive and negative implications it is thus timely and significant to come to terms with japan s design in the region from a historical perspective attributing japan s active involvement in southeast asian affairs to the proclamation of the so called fukuda doctrine of august 1977 this study traces the origins of japan s political role in the region and analyses the development and effects of the very first japanese foreign policy doctrine as perhaps the most exclusive scrutiny on the fukuda doctrine as well as on japan asean relations this study renders a comprehensive history of japan southeast asia relations in the post war period

the impact of natural disasters has become an important and ever growing preoccupation for modern societies volcanic eruptions are particularly feared due to their devastating local regional or global effects relevant scientific expertise that aims to evaluate the hazards of volcanic activity and monitor and predict eruptions has progressively developed since the start of the 20th century the further development of fundamental knowledge and technological advances over this period have allowed scientific capabilities in this field to evolve hazards and monitoring of volcanic activity groups a number of available techniques and approaches to render them easily accessible to teachers researchers and students this volume sets out different surveillance methods starting with those most frequently used seismic surveillance and deformation it then examines surveillance by remote

sensing from ground air and space methods that exemplify one of the most spectacular advances in this field in recent times
