read this book and the world s most famous image will
never look the same again for the world s greatest
cultural icon still has secrets to reveal not the silly
secrets that the leonardo loonies continue to advance
but previously unknown facts about the lives of
leonardo his father lisa gherardini the subject of the
portrait and her husband francesco del giocondo from
this factual beginning we see how the painting
metamorphosed into a universal picture that became the
prime vehicle for leonardo s prodigious knowledge of
the human and natural worlds we learn about the new
money of the ambitious merchant who married into the
old gentry of lisa s family we discover lisa s life as
a wife and mother her association with sexual scandals
and her later life in a convent we meet for the first
time previously undiscovered members of leonardo s
immediate family and discover new information about his
early life the tiny hill town of vinci is placed before

us with its widespread poverty we find out about the career and possessions of his father a notable lawyer in florence the meaning of the portrait that resulted from these human circumstances is vividly illuminated though renaissance love poetry and verses specifically dedicated to leonardo we come to understand how leonardo s sciences of optics psychology anatomy and geology are embraced in his poetic science of art recent scientific examinations of the painting disclose how it evolved to assume its present appearance in leonardo s experimental hands above all we cut through the suppositions and the myths to show that the portrait is a product of real people in a real place at a real time this is the book that brings back a sense of reality into the creation of the portrait of lisa del giocondo and the actual mona lisa it turns out is even more astonishing and transcendent than the mona lisa of legend

The Lost Mona Lisa

2011-12

the mona lisa in the louvre has been accepted for four centuries as the one only and original version of the famous portrait of madonna lisa giocondo painted by leonardo da vinci it is difficult to break down a tradition of such long standing yet this is what is claimed to be done in the following pages but in order to accomplish this theories and arguments no matter how strong and plausible they be count as nothing unless substantiated by facts and direct contemporaneous evidence and it is on these latter that the onus probandi lies the fact that there are two mona lisas in existence to day both of superlative intrinsic merit and both the work of leonardo da vinci the one with a

record of four centuries behind it the other which has scarcely been heard of before and has only just emerged from obscurity creates a sphinx like problem not easy to solve the unknown isleworth mona lisa can however afford to stand on her own merits and cast her enigmatic smile on those who taunt her with her lack of pedigree but convinced of the genuineness of the isleworth painting and that upon the authority of the soundest of expert knowledge i determined to solve the riddle how i have succeeded i leave the reader to judge as however this treatise is complex and discursive i purpose here to give a short outline of its whole theory in 1501 four pictures by leonardo da vinci were seen in his studio in florence two of these were the st anne and the madonna with the spindles the other two were portraits on which his pupils were engaged as was then the common custom filling in details in which he also assisted the two portraits have never hitherto been identified nor accounted for and they have been gratuitously assumed to have been lost why or wherefore no one knows yet as i prove leonardo himself never lost a single drawing much less a painting but at this very time 1501 it is established beyond cavil that leonardo painted the portrait of madonna lisa to the order of her husband hence i maintain that one of the portraits seen was a mona lisa since there is not the slightest particle of evidence to the contrary but what was the second portrait vasari tells us fifty years later that at this very time leonardo produced the st anne and the mona lisa portrait as well as the portrait of another lady in florence but as it is proved that this lady died thirty years previously it could not possibly have been her portrait as leonardo however almost invariably commenced two versions of each of his works which he rarely finished i maintain the second portrait seen in 1501 was a second version of the mona lisa in 1505 raphael saw the mona lisa in florence and made for his own purpose a study of it which now hangs in the louvre

the st anne and a mona lisa are also to day in the possession of the louvre authorities but this louvre mona lisa i prove conclusively cannot be the one from which raphael drew his study and this shows there must have been another version which raphael saw and studied and it was this version that went unfinished to madonna lisa s husband who had commissioned it from the master again at cloux in france in 1517 some eighteen months before his death leonardo showed the cardinal of aragon the st anne and the portrait of a florentine lady which he described as painted to the order of guiliano de medici
