the materials crowded into the earlier chapters mark out the stories connected with the fairies whether of the lakes or of the dry land as the richest lode to be exploited in the mine of celtic folklore that work is attempted in the later chapters and the analysis of what may briefly be described as the fairy lore given in the earlier ones carries with it the means of forcing the conviction that the complex group of ideas identified with the little people is of more origins than one in other words that it is drawn partly from history and fact and partly from the world of imagination and myth the latter element proves on examination to be inseparably connected with certain ancient beliefs in divinities and demons associated for instance with lakes rivers and floods accordingly this aspect of fairy lore has been dealt with in chapters vi and vii the former is devoted largely to the materials themselves while the latter brings the argument to a conclusion as to the intimate connexion of the fairies with the water world then comes the turn of the other kind of origin to be discussed namely that which postulates the historical existence of the fairies as a real race on which have been lavishly superinduced various impossible attributes this opens up a considerable vista into the early ethnology of these islands and it involves a variety of questions bearing on the fortunes here of other races in the series which suggests itself the fairies come first as the oldest and lowest people then comes that which i venture to call pictish possessed of a higher civilization and of warlike instincts next come the earlier celts of the goidelic branch the traces linguistic and other of whose presence in wales have demanded repeated notice and last of all come the other celts the linguistic xii ancestors of the welsh and all the other speakers of brythonic the development of these theses as far as folklore supplies materials occupies practically the remaining five chapters among the subsidiary questions raised may be instanced those of magic and the origin of druidism not to mention a neglected

towards the close of the seventies i began to collect welsh folklore i did so partly because others had set the example elsewhere and partly in order to see whether wales could boast of any story tellers of the kind that delight the readers of campbell s popular tales of the west highlands i soon found what i was not wholly unprepared for that as a rule i could not get a single story of any length from the mouths of any of my fellow countrymen but a considerable number of bits of stories in some instances these were so scrappy that it took me years to discover how to fit them into their proper context but speaking generally i may say that as the materials such as they were accumulated my initial difficulties disappeared i was however always a little afraid of refreshing my memory with the legends of other lands lest i should read into those of my own ideas possibly foreign to them while one is busy collecting it is safest probably not to be too much engaged in comparison when the work of collecting is done that of comparing may begin but after all i have not attempted to proceed very far in that direction only just far enough to find elucidation here and there for the meaning of items of folklore brought under my notice to have gone further would have involved me in excursions hopelessly beyond the limits of my undertaking for comparative folklore has lately assumed such dimensions that it seems best to leave it to those who make it their special study

Joseph Jacobs (29 August 1854 – 30 January 1916) was an Australian folklorist, literary critic, historian, and writer of English literature who became a notable collector and publisher of English folklore. His work went on to popularize some of the world's best-known versions of English fairy tales, including Jack and the Beanstalk, Goldilocks and the Three Bears, the Three Little Pigs, Jack the Giant Killer, and the history of Tom Thumb. He published his English fairy tale collections, *English Fairy Tales* in 1890 and *More English Fairy Tales* in 1894, but also went on after and in between both books to publish fairy tales collected from continental Europe as well as Jewish, Celtic, and Indian fairy tales, which made him one of the most popular writers of fairy tales for the English language. Jacobs was also an editor for journals and books on the subject of folklore, which included editing the *Fables of Bidpai* and the *Fables of Aesop*, as well as articles on the migration of Jewish folklore. He also edited editions of *The Thousand and One Nights*.

The Eastern Celtic tribes, known to the Greeks as Galatians, exploited the waning of Macedonian power after Alexander the Great's death to launch increasingly ambitious raids and expeditions into the Balkans. In 279 BC they launched a major invasion, defeating and beheading the Macedonian king Ptolemy Keraunos before sacking the Greeks' most sacred oracle at Delphi. Eventually forced to withdraw northwards, they were defeated by Antigonus Gonatus at Lysimachia in 277 BC but remained a threat. A large Galatian contingent was invited to cross to Asia to intervene in a war in Bithynia, but they went on to seize much of central Anatolia for themselves, founding the state of Galatia. Antiochus I curbed their power in the elephant victory of 273 BC, but they remained a force in the region, and their fierce warriors served as mercenaries in many armies throughout the Eastern Mediterranean. John Grainger narrates and analyses the fortunes of these Eastern Celts down to their eventual subjugation by the Romans, Galatia becoming a Roman province in 30 BC.
